Oral and Maxillofacial Surgery Pearls IX

The Jack Kent Oral and Maxillofacial Surgery Foundation

The Louisiana Society of Oral and Maxillofacial Surgeons and The LSU Oral and Maxillofacial Surgery Alumni Associations are proud to join the Jack Kent Oral and Maxillofacial Surgery Foundation (JKOMSF) in sponsoring OMS Pearls. The American Association of Oral and Maxillofacial Surgeons (AAOMS) is also jointly providing this activity with the LSOMS and LSU OMS to provide CDE/CME credit.

The LSU OMS Alumni Association, through the efforts of a core group of concerned alumni, formed the Jack Kent Oral and Maxillofacial Surgery Foundation (JKOMS Foundation) in 2010 for the purpose of supporting the teaching, research, and service goals of the LSU OMS department in New Orleans. The foundation is a 501(c)(3) organization, and all donations are tax-deductible.

Jack Kent Oral and Maxillofacial Surgery Foundation

The OMS Pearls IX Conference faculty features six outstanding educators and practitioners and 13 hours of CDE/CME credit over two days.

OBJECTIVES:

Anesthesia - Following this presentation, the participant 1) Will understand the issues and controversies of other associations trying to affect the provision of ambulatory anesthesia in the OMS office. 2) Will be familiar with advanced options of office simulation of emergencies for training and coordinating their anesthetic team to improve outcomes during an anesthesia urgency.

Dental Implant – Understand 1) the methods for using a crestal approach for maxillae with 1 to 10 mm of crestal bone height, 2) the method for furcation intrusion at time of maxillary molar extraction to augment vertical bone height in the maxilla, and 3) the crestal window can be used in severely atrophic bone without significant sinus complications.

Maxillofacial Trauma - To help the provider determine 1) which condylar process fractures should be treated open, which ZMC fractures require internal orbital reconstruction, and 3) the best management of mandibular angle fractures.

TMJ Surgical Management - 1) Understand surgical treatment planning. 2) Appreciate the difference of various treatment modalities and their Controversies. 3) Understand why patient outcomes are affected by differences in surgical procedures.

Dentoalveolar Surgery - 1) Review the indications, surgical technique, and long-term outcomes related to coronectomy. 2) Discuss the role of surgical uprighting as a salvage option for unerupted molars and bicuspid. 3) The option of cyst decompression will be discussed for the treatment of large osseous cystic lesions of the jaws. Attention will be focused on case selection, surgical technique, and long-term outcomes.

Cosmetic Surgery - 1) Identify areas of controversy in treatment of the facial cosmetic patient and design an appropriate treatment plan. 2) Identify areas of controversy in practice marketing for the cosmetic OMS and suggest strategies for improving patient awareness of cosmetic services.

PEARLS IX HIGHLIGHTS: Six outstanding practitioners, all outstanding in their presenting fields, will provide new and controversial material in the areas of OMS Office Anesthesia, Dental Implant Surgery & Prosthodontics, TMJ Disorders & Surgical/Medical Treatment, Dentoalveolar Surgery, OMS Esthetic Office Procedures, and Maxillofacial Trauma. This two day course yields 13 credit hours of dental and medical continuing education.

INTENDED AUDIENCE: This activity is specifically directed towards the Oral and Maxillofacial Surgeon and Restorative Dentist, but it is open to all other interested dentists, physicians, residents, medical and dental students, and allied health professionals.

Robert M Laughlin, BA, DMD

JKOMSF and LSU OMS Alumni welcome Rob Laughlin as Chair of LSU OMS, New Orleans.

CME/CDE credit will be issued to course registrants at the end of the course.

The French Quarter & New Orleans

What better setting for a New Orleans stay than the historic French Quarter. Fine dining, music, and culture abound in this site of the original city of New Orleans. View the Mississippi river from its banks or enjoy a ride on a riverboat. No need for a car, there is so much to see within a short walk. Jackson Square, the original city center is surrounded by museums and restaurants. The French Quarter is also home to the urban portion of Jean Lafitte National Park, encompassing two sites in the French quarter, including one devoted to New Orleans Jazz. The Audubon Aquarium and the Insectarium are also right there, offering glimpses of animal life in and around the Big Easy. The World War II Museum, one of America's top museum attraction, is also close, offering history, food venues, and often a good nighttime show in the Stage Door Canteen. The St. Charles Streetcar allows access to uptown, Audubon Park and Zoo, and the Garden District, the original "American" part of town. The Canal Streetcar will take you to City Park, home of the New Orleans Museum of Art and the largest stand of ancient live oak trees in America.

For more information on New Orleans, the French Quarter, and events happening during your visit go to www.neworleans.com.

Academic Course Schedule, Topics, and Faculty

All conference sessions at the New Orleans Marriott, 41st floor
on Canal Street, in the French Quarter
Friday – Saturday, March 27-28, 2020

FRIDAY, MARCH 27, 2020

7:00 AM - 8:00 AM **Registration and Check-in, Continental Breakfast**

8:00 AM - 8:15 AM **Welcome and Opening Remarks** *Robert Laughlin, BA, DMD*

8:15 AM - 9:30 AM **Controversies in the Management of Maxillofacial Trauma** *Edward Ellis, DDS, MS*

The Management of facial fractures is not usually based on scientific outcome data but instead the surgeon's training, their specialty, and/or their experience. This presentation will discuss the types of facial fractures for which disparate treatments are routinely provided and provide scientifically-valid outcome data to help the practitioner select appropriate treatments.

9:30 AM - 10:00 AM **Break**

10:00 AM - 11:30 PM **Controversies in the Management of Maxillofacial Trauma** *Edward Ellis, DDS, MS*

The Management of facial fractures is not usually based on scientific outcome data but instead the surgeon's training, their specialty, and/or their experience. This presentation will discuss the types of facial fractures for which disparate treatments are routinely provided and provide scientifically-valid outcome data to help the practitioner select appropriate treatments.

11:30 AM - 12:30 PM **Lunch-Buffer**

12:30 PM - 2:00 PM **Controversies In The Provision of Ambulatory Anesthesia in the OMS Office: Can We Predict Poor Outcome Risks?**

Stuart Lieblich, DMD

The provision of office anesthetics in the OMS office is becoming more controversial; particularly with pediatric cases. This portion with discuss issues of patient selection, staff selection and staff training along with specific case presentations to illustrate how we can possibly reduce poor outcomes in our practices.

2:00 PM - 2:30 PM **Break**

2:30 PM - 3:30 PM **Controversies In The Provision of Ambulatory Anesthesia in the OMS Office: Can We Predict Poor Outcome Risks?**

Stuart Lieblich, DMD

The provision of office anesthetics in the OMS office is becoming more controversial; particularly with pediatric cases. This portion with discuss issues of patient selection, staff selection and staff training along with specific case presentations to illustrate how we can possibly reduce poor outcomes in our practices.

3:30 PM - 5:00 PM **Controversies in Dentoalveolar Surgery** *Mark Fletcher, DMD, MD, FACS*

Effective clinical problem solving is an integral part of contemporary oral and maxillofacial surgical practice and controversies exist regarding the most safe and effective surgical treatment modalities for our patients. Alternative treatment options such as coronectomy, surgical uprighting of impacted teeth, and cyst decompression will be discussed.

Reception to Follow!

Pearls of Controversy in Oral and Maxillofacial Surgery

SATURDAY, MARCH 2, 2020

7:00 AM - 8:00 AM **Continental Breakfast**

8:00 AM - 10:00 AM Controversies in Facial Cosmetic Surgery *Jon Perenack, DDS, MD*

This lecture will review common treatment dilemmas or “controversies” that the OMS faces when treating the cosmetic patient. Issues of patient age, what filler or neurotoxin to use, surgical staging with orthognathic surgery and dilemmas of marketing the cosmetic office will be discussed. Designed for the private practice OMS with interest in things “cosmetic”, this lecture will offer useful tips that can be put into practice quickly.

10:00 AM - 10:30 AM **Break**

10:30 AM - 12:30 PM **Controversies in Preprosthetic and Implant Surgery** *Michael Block, DMD*

There are many controversies without or without sound science and outcomes in surgical and prosthetic dental implant treatment. One such controversy is the crestal approach replaces the lateral window approach for sinus augmentation.

12:30 PM - 1:30 PM **Lunch**

1:30 PM - 3:00 PM **Controversies in Surgical Management of Temporomandibular Joint Surgery - Part I**

Louis Mercuri, DDS, MS

This presentation will discuss the following controversial topics: “Is the position of the TMJ disc really the problem and/or the solution?” “Is there still a place for the costochondral graft in TMJ reconstruction?”

3:00 PM - 3:30 PM **Break**

3:30 PM - 4:30 PM **Controversies in Surgical Management of Temporomandibular Joint Surgery - Part II**

Louis Mercuri, DDS, MS

This presentation will discuss the following controversial topics: “Is combined TMJ and orthognathic surgery necessary in TMD patient with a dentofacial deformity?” “Is there a role for alloplastic TMJ replacement appropriate in the skeletally immature patient?”

OMS PEARLS FACULTY

SPEAKERS

Michael Block, DMD

Dr. Block graduated from the University of Rochester in 1975, attaining both a BA in Biology and a BS in Biomedical Engineering. He received his DMD, cum laude in a special field, at Harvard School of Dental Medicine in 1979. He completed his OMS residency at the LSUSD and Charity Hospital in 1983. He remained with LSU OMS and achieved the academic rank of Professor.

Currently he is in private practice dedicated to patient oriented care and donates time to LSU OMS as part time faculty. Dr. Block is the editor-in-chief of five textbooks on dental implants, Endosseous Implants for Maxillofacial Reconstruction, Implants in Dentistry, Color Atlas of Dental Implant Surgery: the 4th edition was published in 2014. He is Past President of the Academy of Osseointegration, and has been program chairman for three of their annual programs. Dr. Block serves on the American Association of Oral and Maxillofacial Surgeons (AAOMS) Committee on Continuing Education. Dr. Block has been an examiner for ABOMS and is the Section Editor on Dental Implants for the Journal of OMS. Dr. Block is particularly interested in the translation of technology for efficient and predictable reconstruction of the jaw to provide ideal bone for implant placement and esthetic replacement of missing teeth, the use of multiple techniques and implants to reconstruct significant atrophic conditions, and interceptive strategies for rehabilitating extraction sites with implant restorations.

Edward Ellis, DDS, MS

Dr. Edward Ellis is Professor and Chair of the Department of Oral and Maxillofacial Surgery at The University of Texas Health Science Center at San Antonio, Texas. Dr. Ellis' clinical interests are in maxillofacial traumatology and dentofacial deformities. He has authored over 200 scientific articles and two books. He is the past President of the American Board of Oral and Maxillofacial

Surgery and has been on the editorial boards of many Oral and Maxillofacial Surgery journals for several years.

Mark Fletcher, DMD, MD, FACS

Dr. Fletcher is a board certified oral and maxillofacial surgeon. He received his B.S. at Boston College and D.M.D. at the University of Pennsylvania. Dr. Fletcher earned his M.D. at Jefferson Medical College, graduating magna cum laude. He completed his oral and maxillofacial surgery residency and general surgery internship at Thomas Jefferson University Hospital

in Philadelphia. Dr. Fletcher has been on the attending medical staff at Hartford Hospital in Hartford, Connecticut for 19 years, where he currently serves as the section head of oral and maxillofacial surgery. He holds a faculty appointment as a Clinical Assistant Professor in the Division of Oral and Maxillofacial Surgery at the University of Connecticut School of Dental Medicine. He serves as an active member of the maxillofacial trauma team at Hartford Hospital and Connecticut Children's Medical Center and maintains a private practice in oral and maxillofacial surgery in Avon, CT. Dr. Fletcher has published and lectured nationally on various topics in oral and maxillofacial surgery. He serves as an editorial reviewer for the Journal of Oral and Maxillofacial Surgery and the International Journal of Oral and Maxillofacial Surgery. His clinical interests include office-based oral and maxillofacial surgery, dental implant reconstruction, corrective jaw surgery, and the treatment of facial trauma.

Stuart Lieblich, DMD

Dr. Lieblich is a graduate of Rutgers University and the University of Pennsylvania School of Dental Medicine. He completed his residency in Oral and Maxillofacial Surgery at Kings County/Downstate Medical Center in New York and was an Assistant Professor 1984-88 of the University of Connecticut. Currently, he is in private practice in Avon, CT and maintains a part-time teaching appointment at the University

of Connecticut as Clinical Professor. Dr. Lieblich has been a contributor to 20 textbooks and has published 45 papers and abstracts. He lectures widely on ambulatory anesthesia, dental implants, and dentoalveolar surgery. Stu has served as President of the American Dental Society of Anesthesiology and the American Board of Oral and Maxillofacial Surgery. He is on the editorial boards of Anesthesia Progress; Oral Surgery, Oral Medicine Oral Pathology and the Journal of Oral and Maxillofacial Surgery. He serves on many local, state and national committees and is a member of the ADA's Commission on Accreditation and the AAOMS Parameters of Care Committee.

Louis Mercuri, DDS, MS

Dr. Mercuri is a Cum Laude graduate of Georgetown University School of Dentistry, Washington, DC. He received his Certification and Master of Science in Oral and Maxillofacial Surgery from the University of Illinois Chicago. Dr. Mercuri is the recipient of the 2009 Oral and Maxillofacial Foundation Research Recognition Award, the 2010 William J. Gies Founda-

tion Distinguished Achievement Award in Oral and Maxillofacial Surgery. In 2011, he was awarded an Honorary Fellowship in Faculty of Dental Surgery from the Royal College of Surgeons of England for his body of work in alloplastic TMJ replacement. He is now a Visiting Professor in the Department of Orthopaedic Surgery at Rush University Medical Center, Chicago Illinois, President of the University of Illinois Chicago Institute of Biomaterials, Tribocorrosion, Nanotechnology and Regenerative Medicine, and a Clinical Consultant for TMJ Concepts, Ventura, CA.

John Perenack, DDS, MD

Dr. Perenack's practice is almost solely devoted to facial cosmetic and reconstructive surgery. He has received board certification from both the American Board of Cosmetic Surgery in Facial Cosmetic Surgery and American Board of Oral and Maxillofacial Surgery. Dr. Perenack completed fellowship training at the prestigious Facial Plastic and

Cosmetic Surgery Center in Texas in 2003. Previously, he completed his residency in Oral and Maxillofacial in New Orleans at LSU Health Sciences Center. Dr. Perenack was a full-time faculty member of the LSU Department of Oral and Maxillofacial Surgery from 2003 to 2015 and was the Director of Residency Training at LSU from 2005 to 2014. While maintaining an associate adjunct clinical professorship with LSU OMS, Dr. Perenack is currently in full-time private practice in Baton Rouge Louisiana and offers a 1-year AACS-accredited Fellowship in Facial Cosmetic Surgery. Dr. Perenack has numerous journal and book chapter publications in the cosmetic field to his credit and has spoken on the subject internationally.

This conference is presented by the Jack Kent Oral and Maxillofacial Surgery Foundation

CANCELLATION AND REFUND POLICY: Jack Kent Oral and Maxillofacial Surgery Foundation reserves the right to cancel this conference should circumstances warrant such action, and your tuition will be refunded. If you must cancel your registration for this conference, the Foundation will refund your tuition (minus an administrative fee) if written notification of your withdrawal is received by the Foundation 15 working days prior to the start of the conference. Notification of withdrawal received after the conference begins will result in forfeiture of your entire tuition. The Jack Kent Oral and Maxillofacial Surgery Foundation Conference cannot be held responsible for the cost of a nonrefundable airline ticket, flight charge, or hotel reservation in the event this conference is cancelled or rescheduled. **EQUALITY OF EDUCATIONAL OPPORTUNITY:** The Jack Kent Oral and Maxillofacial Surgery Foundation is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees based on race, color, national origin, religion, sex, age, or disability.

NO RECORDING DEVICES WILL BE ALLOWED IN THE LECTURE ROOM.

Continuing Education Credits

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between the American Association of Oral and Maxillofacial Surgeons (AAOMS), the Louisiana Society of Oral and Maxillofacial Surgeons (LSOMS) and Louisiana State University School of Dentistry Department of Oral and Maxillofacial Surgery (LSU OMS).

The American Association of Oral and Maxillofacial Surgeons is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The American Association of Oral and Maxillofacial Surgeons designates this activity for 13 continuing education credits.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the American Association of Oral and Maxillofacial Surgeons (AAOMS), the Louisiana Society of Oral and Maxillofacial Surgeons (LSOMS) and Louisiana State University School of Dentistry Department of Oral and Maxillofacial Surgery (LSU OMS). The AAOMS is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Association of Oral and Maxillofacial Surgeons designates this live activity for a maximum of 13 *AMA PRA Category 1 Credit(s)*TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This activity is presented for educational purposes only. Participants are expected to use their own expertise and judgment while engaged in the practice of oral and maxillofacial surgery. Attendees should check specific details such as drug doses, contraindications, etc., in standard sources prior to clinical application. The content of presentations is provided solely by presenters who have been selected because of their recognized expertise.

The OMS Pearls Conference is presented and managed by the Jack Kent Oral and Maxillofacial Surgery Foundation. The express purpose of this conference is to provide continuing education in the field of oral and maxillofacial surgery for those in attendance. The statements, ideas, and opinions expressed in this conference are those of the individual participants and in no way should reflect the statements, ideas, and opinions of any specialty certifying organization; any OMS professional or alumni organization; LSU Health New Orleans School of Dentistry; LSU Health Sciences Center in New Orleans and Shreveport; the LSU Department of Oral and Maxillofacial Surgery; or others involved in this activity.
